Analysis by the Legislative Reference Bureau**MILWAUKEE PARENTAL CHOICE PROGRAM**

This bill makes a number of changes in the laws governing the Milwaukee Parental Choice Program (MPCP), under which a pupil who resides in the city of Milwaukee may attend a private school at state expense under certain conditions. The changes include the following:

Teacher licensure

Beginning in the 2009–10 school year, this bill directs each private school participating in the MPCP to ensure that every teacher, supervisor, administrator, and professional staff member holds a license or a permit to teach issued by the Department of Public Instruction (DPI). Under current law, a person is not required to be licensed to teach in any private school.

Pupil assessments

Current law requires each private school participating in the MPCP to administer a nationally normed standardized test in reading, mathematics, and science to pupils attending the school under the program in the fourth, eighth, and tenth grades. This bill requires each private school participating in the MPCP to administer the fourth, eighth, and tenth grade examinations adopted or approved by DPI to pupils attending the school under the MPCP.

Current law requires each school board to adopt either its own academic standards or the academic standards contained in the governor's executive order issued on January 13, 1998. Identical provisions exist under current law for independent charter schools. This bill requires the governing body of each private school participating in the MPCP to adopt academic standards.

Under current law, each school board must administer to all pupils enrolled in the school district in the third grade, including pupils enrolled in charter schools (other than independent charter schools) located in the school district, a standardized reading test developed by DPI. The independent charter schools are required to administer this test to their third grade pupils. Private schools participating in the MPCP are not required to administer this test. This bill imposes this requirement on these private schools for pupils attending the schools under the MPCP.

The federal No Child Left Behind Act requires public school assessments in reading and mathematics in each of grades 3 to 8 and at least once in grades 10 to 12; and in science at least once in grades 3 to 5, 6 to 9, and 10 to 12. This bill imposes this requirement on private schools participating in the MPCP for pupils attending the schools under the MPCP.

The bill appropriates to DPI a sum sufficient to pay the costs of acquiring, administering, and scoring the examinations.

BILL***Disclosure requirements***

The bill requires each MPCP school to provide, annually to DPI and upon request to any person, all of the following:

1. The results of all standardized tests administered in the previous school year.
2. Rates of graduation, truancy, attendance, suspension, and expulsion in the previous school year.
3. The private school's requirements for promotion from grade to grade and for graduation.
4. The number of pupils enrolled in the previous school year who were handicapped.
5. The services provided by the private school to pupils with disabilities.
6. The private school's safety plan.
7. The private school's attrition rate for teachers in the previous school year, as compared to the statewide attrition rate and the Milwaukee Public Schools' (MPS) attrition rate in the previous school year.
8. The private school's budget for the ensuing fiscal year.
9. The private school's academic standards.

Pupil records

The bill requires a private school participating in the MPCP to maintain records for each pupil attending the school under the MPCP while the pupil attends the school and for at least five years thereafter. The bill requires the private school to provide a copy of the records to the pupil or the pupil's parent or guardian upon request and, if the school closes, to transfer the records to MPS. The bill also requires the private school to issue a high school diploma or certificate to each pupil attending the school under the MPCP who satisfies all of the requirements necessary for high school graduation.

Current law requires a school district to transfer to another school or school district, within five working days, all pupil records relating to a specific pupil if the transferring school district has received notice from the pupil (if he or she is adult), from the pupil's parent or guardian (if the pupil is a minor), or from the other school or school district that the pupil intends to enroll or has enrolled in the other school or school district. This bill makes this requirement applicable to the private schools participating in the MPCP.

Accreditation

Currently, in order to participate in the MPCP, a private school must be accredited by the Wisconsin North Central Association, the Wisconsin Religious and Independent Schools Accreditation, the Independent Schools Association of the Central States, the Archdiocese of Milwaukee, the Institute for the Transformation of Learning at Marquette University, or any other organization recognized by the National Council for Private School Accreditation, or be approved for scholarship funding for the 2005–06 school year by Partners Advancing Values in Education (PAVE).

Under this bill, approval by PAVE no longer satisfies the accreditation requirement.

BILL***School assessment guide***

The bill directs DPI to develop a guide for parents to use in assessing public and private schools, including charter schools. The guide must include information on how to evaluate the academic performance of pupils enrolled in a school, a school's academic opportunities, a school's expenditures per pupil, the education and experience levels of teachers, and the opportunities for parental involvement in a school and classroom. DPI must post the guide on its Internet site and make copies available to schools upon request.

MPCP cost report

The bill requires MPS to report annually to the legislature the costs it incurred in the previous school year in connection with the MPCP, including transportation costs and costs of providing special education to pupils attending private schools under the MPCP.

Under current law, a person may not operate a school bus without a school bus endorsement issued by the Department of Transportation (DOT). A person may obtain a school bus endorsement to the person's regular motor vehicle operator's license if the person is to operate a school bus that is not a commercial motor vehicle (CMV) or to the person's commercial driver license (CDL) if the person is to operate a school bus that is a CMV.

Also under current law, an employer may not knowingly allow an employee to operate a CMV during any period of withdrawal of the employee's operating privileges or when the employee does not possess a valid CDL with any required endorsement. The employer also may not knowingly allow an employee to operate a CMV in violation of any law. A person who holds a CDL must report to his or her employer any conviction for a traffic violation within 30 days of the conviction and any withdrawal of operating privileges by the end of the day after the withdrawal. DOT maintains an employer notification program to permit an employer to register the name of a CDL-holding employee and be notified by DOT whenever a conviction or withdrawal of operating privileges is recorded on the employee's operating record.

Under this bill, an employer that employs any person as an operator of a school bus is responsible for determining that each such person is qualified to operate a school bus. This employer is also responsible for assuring that only employees so qualified operate the employer's school buses. If the employer employs any person holding a CDL to operate a school bus, the employer must participate in DOT's employer notification program. An employer that violates any of these requirements must forfeit not less than \$20 nor more than \$400.

Also under current law, every school board must require that a certificate of insurance is filed with the school board and DOT showing that an insurance policy has been procured and is in effect which covers the owner and operator of the school bus and the school board or the school board must procure an insurance policy and file the certificate with DOT. DOT may not issue registration plates for a school bus unless the certificate is on file with DOT. This insurance policy may not be canceled or terminated prior to its expiration unless notice of cancellation or termination is filed by the insurer with DOT and the school board at least ten days prior to the date

of cancellation or termination. DOT must then revoke the registration of any school bus on which the policy has been canceled or terminated.

Under this bill, the same requirements that apply to a school board also apply to the governing body of a charter school and the governing body of a private school. The bill requires that the insurance policy procured by a school board or the governing body of a charter school or the operator of a private school is in effect for the entire school year and, if applicable, for the entire term of summer classes. The bill requires an insurer to provide 30 days' notice, rather than 10 days' notice, if it cancels or terminates an insurance policy covering a school bus prior to the policy's expiration.

Under current law, a school board or the governing body of a private school may provide pupil transportation services by alternative methods. These alternative methods consist of a motor vehicle transporting nine or fewer passengers in addition to the operator, and a motor vehicle transporting ten or more passengers in addition to the operator when the secretary of transportation determines, at the request of the school board or governing body, that an emergency exists because no regular transportation is available. Current law requires, with certain exceptions, that motor vehicles used for alternative pupil transportation comply with the insurance requirements applicable to school buses.

This bill clarifies that the operator of a charter school may provide pupil transportation services by alternative methods, and subjects the charter school to the same insurance requirements applicable to a school board and the governing body of a private school. In addition, the bill requires that a school board, the governing body of a private school, and the operator of a charter school file with DOT a certificate of insurance showing that the insurance policy applicable to a motor vehicle used as an alternative method of pupil transportation is in effect for the entire school year. The bill requires an insurer to provide 30 days' notice to DOT and the school board, governing body of a private school, or operator of a charter school prior to the cancellation or termination of an insurance policy covering a motor vehicle used as an alternative method of pupil transportation.

Under current law, private schools participating in the MPCP annually must submit information to DPI, including an independent financial audit of the school. DPI may bar from participating in the MPCP a private school that fails to submit the required information. This bill requires a participating private school to submit to DPI a certificate of insurance showing that an insurance policy that meets the requirements, described above for both school buses and motor vehicles used as an alternative method of pupil transportation, has been procured and is in effect. In addition, DPI must be notified of any changes to the policy held by a participating private school or if the policy is canceled or terminated.

Under current law, the definition of "school bus" includes a motor vehicle which carries ten or more passengers in addition to the driver or is painted in accordance with specifications established by statute and which is used for the purpose of transporting pupils to or from an elementary or high school supported by public taxation, a private school that meets criteria established by DPI, or, under certain conditions, a technical college. This bill changes the definition of "school bus" to

(2X) The bill also requires an insurer who provides this insurance coverage to a school participating in the MPCP to notify DPI of any change made to the policy. The bill also requires a private school participating in the MPCP to immediately notify DPI that the school has received a notice of cancellation or termination from the insurer.

BILL

explicitly include a motor vehicle that satisfies the above conditions and that is used for the purpose of transporting pupils to or from a charter school.

Also under current law, if a motor vehicle providing pupil transportation gets into an accident, the accident must be reported to the school board within ten days after its occurrence.

Under this bill, the accident must, if applicable, be reported to the governing body of a charter school or the governing body of a private school.

Under current law, a person may not operate or knowingly permit the operation of a motor vehicle if the registration for that vehicle is suspended, revoked, or canceled. A person who violates this prohibition may be required to forfeit not more than \$200 if the vehicle involved in the violation is an automobile or weighs 10,000 pounds or less and may be required to forfeit not more than \$500 if the vehicle involved is any other vehicle.

This bill specifically prohibits a person from operating or knowingly permitting the operation of a school bus, or motor vehicle used as an alternative method of pupil transportation, required to be covered by liability insurance unless such valid insurance is current on the school bus. A person who violates this prohibition may be required to forfeit not more than \$500.

INSERT 4B

Exclusion of private schools from the MPCP

Under current law, DPI may bar a private school from participating in the MPCP if DPI determines that the private school has violated certain prohibitions. For example, a private school that fails to submit an independent financial audit of the school that has been conducted by a certified public accountant may be barred from participating in the MPCP. This bill creates the following additional grounds for DPI to bar a school from participating in the MPCP:

- ✓ 1. Failure to comply with the disclosure requirements established in the bill.
- ✓ 2. Failure to comply with the teacher licensure and pupil assessment requirements established in the bill.
- ✓ 3. Failure to develop policies on truancy, excused and unexcused absences, bullying, and promoting parental involvement and volunteerism, as required in the bill.
- ✓ 4. Failure to maintain and issue pupil records as required in the bill.
- ✓ 5. Failure to procure and maintain insurance as required by DPI and under the bill.
